

## Premium Aerotec GmbH

### Overview of the event

Premium AEROTEC is fully owned by EADS and, with over 6,000 employees, is Europe's largest manufacturer of aerostructures, ranking in the top five of its kind in the world. On May 12, 2009 the Meistersaal was the venue of a parliamentary evening for some 200 invited guests from politics and business. After accreditation, the guests were given a red carpet welcome and treated to a champagne reception. Following two opening speeches and a discussion, the Meistersaal, which had been equipped with parliamentary seating and decorated in subtle tones of the company colours, was converted into a spacious, inviting lounge, while the guests enjoyed the buffet. A five-piece band provided musical entertainment until the evening ended in a pleasant and relaxed atmosphere.
